## Adaptation to climate change conference

Construction Products Europe organises next 28 October this conference within the program of the [baseEUcities](#) event in Brussels to understand the challenges and discuss the right solutions for this important topic. Registration will open soon in our website [Agenda and additional information already available...](#)

---

## Citation of harmonised standards and EAD

The first list of EAD has been published in the OJEU both the list and the documents are accesible online through the following links [EAD list in the OJEU](#) [EAD documents in the EOTA website](#).

The list of harmonised standards was also updated and the references are publised in the [OJEU hEN list](#).

Citation process has been discussed by our experts and CEN/TC experts. The [official outcome](#) of our workshop on standardisation was published this summer.

## EC consultation on skills, competences and qualifications

EC has launched an online consultation on skills, competences and qualifications through ESCO, a multilingual classification of European Skills, Competences, Qualifications, and Occupations . [Read more...](#)

## European Commission Directors-General

As of 1st September, there will be a number of changes at the European Commission Directors-generals level. Amongst these, we note that Daniel Calleja Crespo will move from DG Internal Market, Industry, Entrepreneurship and SMEs (GROW) to DG Environment, replacing Karl Falkenberg. In turn, Lowri Evans will lead DG GROW. Last but not least, Johannes Laitenberger will replace Alexander Italianer as head of DG Competition.

## Consultation on the Evaluation of the Energy Performance of Buildings Directive

The objective of this initiative is to consult stakeholders on the review of the Energy Performance of Buildings Directive and evaluate whether the directive has met its aims. The consultation will also explore issues in relation to the Smart Finance for Smart Buildings initiative and the links of the directive with other energy policy areas. The public consultation launches the review of the directive, which is due by the end of 2016 as required under Article 19 of the directive. [Read more...](#)

## Energy efficiency of buildings - open call for experts

EeB-CA2 has launched an open call to recruit external high-level experts in technical and innovation fields. The selected experts will complement the EeB-CA2 Expert Group, constituted by representatives of EeB projects. [Read more...](#)

## Ecodesign for solid fuel heaters

Ecodesign requirements for solid fuel local space heaters were published in the OJEU. This product is also covered

by the CPR and the standard will be updated to consider the requirements. The requirements include energy performance, emissions and product information and will be mandatory the 1st January 2022. [Read more...](#)
