CWA 17316

July 2018

Sponsored Smart CE marking CWA 17316 available online

Pleased to inform you that we have found an agreement with CEN Management Centre to sponsor a free access to the Smart CE marking CEN Workshop Agreement (CWA). We will now contact National Standards Bodies to see whether we could collaborate on the translations of this CWA in as many languages as possible to facilitate the work in the respective construction products Technical Committees.

For any reference regarding the download of this CWA, you are kindly asked to use the [official CEN link](#).

Construction Products Europe is planning various activities to support the development of Smart CE marking formats for harmonised standards in collaboration with CEN and the experts from the industry.

European Commission digital construction platform

On 26 July, the European Commission published a call for proposals including a digital industrial platform for the construction sector. The deadline is set for 14 November. [Read more...](#)

The European Commission will hold a webinar on September 10, during which there will be an opportunity to ask questions. Please note that the digital construction platform is planned for 15.15. [Read more...](#)

Workshop - Essentials for drafting standards

On 22 October CEN, in collaboration with Construction Products Europe, organises a workshop to present guidance to technical experts for drafting harmonised standards. During the event the last updates in the process will be discussed together with the lessons learnt during the last years. The last part of the event will be an

opportunity to be informed about the new initiatives on how to address digitalisation and environmental information delivery in harmonised standards. [Read more and registration...](#)

Level(s) newsletter

The European Commission published in July the first newsletter on Level(s), their assessment framework for the environmental performance of buildings. Registration to participate in the testing phase closes on 30 September. Some examples of testing actions across Europe are reported in the document. [Read more...](#)

REDay2018 - Key Tools to Boost Energy Renovation

This year's Renovate Europe event, to be held in the European Parliament on 9 October, will include presentations from all levels of governance from the EU to the local, city level passing through the national and sub-national levels. The invited audience will represent a cross-section of concerned stakeholders ready to assist the various levels of governance to play their part in the transformation of the building stock in the EU before 2050.

The conference will be followed by a networking lunch and site visits to two buildings in the Brussels area. [Read more and registration...](#)

EU Industry Days 5-6 February

The event will take place next year in Brussels at the Egg Congress and Meeting Centre. The programme will be once more co-created by the European Commission (EC) and by stakeholders. In addition, throughout January and February 2019 local events will take place across Europe under the brand of the European Industry Week. [Read more...](#)

EN 15804 amendment enquiry voted positive

CEN Standardisation bodies voted positive to the amendment of EN 15804. The draft, developed to fit the requirements requested by the European Commission, is now being revised by CEN/TC 350 WG3 according to the comments received during the enquiry process. This is one of the most relevant topics to be discussed during the CEN/TC 350 Working Groups and plenary meetings to take place in Helsinki the second week of October.
